Notice of Allowability	Application No.	Applicant(s)	
	10/054,134	AGRAWAL ET AL.	
	Examiner	Art Unit	
	Phuong Phu	2631	
The MAILING DATE of this communication apperaisable of the communication apperaisable of the communication apperaisable of the Carlowable, PROSECUTION ON THE MERITS IS herewith (or previously mailed), a Notice of Allowance (PTOL-85) NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RI of the Office or upon petition by the applicant. See 37 CFR 1.313	(OR REMAINS) CLOSED in this app or other appropriate communication GHTS. This application is subject to	plication. If not include will be mailed in due	ed course. THIS
1. 🖾 This communication is responsive to the amendment filed	on <u>12/6/05</u> .	•	
2. The allowed claim(s) is/are 25-28.			
3.			
Attachment(s) 1. ☑ Notice of References Cited (PTO-892) 2. ☐ Notice of Draftperson's Patent Drawing Review (PTO-948) 3. ☐ Information Disclosure Statements (PTO-1449 or PTO/SB/O Paper No./Mail Date 4. ☐ Examiner's Comment Regarding Requirement for Deposit of Biological Material	5. ☐ Notice of Informal P. 6. ☐ Interview Summary Paper No./Mail Dat 7. ☐ Examiner's Amendn 8. ☑ Examiner's Stateme 9. ☐ Other	(PTO-413), e nent/Comment	

Application/Control Number: 10/054,134

Art Unit: 2631

REASONS FOR ALLOWANCE

- 1. This Office Action is responsive to the Amendment filed on 12/6/05.
- 2. Claims 25-28 are allowed.
- 3. The following is an examiner's statement of reasons for allowance:

References 2002/0150147 and 6,891,857 are additionally cited because they are pertinent to the claimed invention.

-Regarding to independent claims 25 and 26, none of prior art of record teaches or suggests a method and an associated system for avoidance transmission interference, as claimed, wherein the method/system comprises a procedure/device of changing size of packets on one of two channels to allow transmission to proceed simultaneously on both of the channels where the frequency collision between transmission on the two channels was predicted, in combinations with other limitations recited in the claim. Mansfield (6,859,450), previously cited, teaches the claimed invention except that in Mansfield, the packet transmission on one of the two channels in a time slot, where the frequency collision occurred, is muted or discarded, and therefore, results in only the packet transmission on the other of the two channels is carried out on that time slot in order to avoid the frequency collision. It would not have been obvious for a person skilled in the art to implement Mansfield in view of other prior art of record for leading such the implementation to the claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2631

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Phuong Phu whose telephone number is 571-272-3009. The examiner can normally be reached on M-F (6:30-2:30).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mohammad Ghayour can be reached on 571-272-3021. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
